REASONS FOR ALLOWANCE

The amended filed on July 10, 2007 has been acknowledged. Claims 6-7, 10, 12-14 have been amended. Claims 1-5, 8-9, 11, 15-35 have been canceled. Claims 6-7, 10, 12-14 and 36-39 are pending and considered.

Claims 6-7, 10, 12-14 and 36-39 are allowed.

1. The following is an examiner's statement of reasons for allowance: Applicants' argument filed on July 10, 2007 has been respectfully considered, it was found to be persuasive to withdraw the 103 rejection. As applicants submit in the response that the claimed invention is directed to an unexpected result that administration of selenium in combination with retinoid compound can inhibit HCV viral replication. While various histamine and histamine-related compounds including selenium or retinoid can reduce the cellular and tissue damage caused by reactive oxygen metabolites (ROMs) released by phagocytic or endothelial cells in response to various disease in pathologies, such as hepatitis C virus infection known in the art, no prior art teaches or suggests that administration of selenium in combination with retinoid compound can actually inhibit HCV viral replication.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bao Qun Li whose telephone number is 571-272-0904. The examiner can normally be reached on 6:30 am to 3:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Bruce Campbell can be reached on 571-272-0974. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
